Continuation Statement

Description West Africa -- We continued to work with our partners Agrecol Afrique in Senegal; Association Nourrir Sans Détruire (ANSD) in Burkina Faso; the Center for Indigenous Knowledge and Organizational Development (CIKOD) in Ghana; and Sahel Eco in Mali. Our West Africa program focuses on supporting dryland farming households to transition from conventional agriculture to agroecological and regenerative farming and food systems that allow them to mitigate and adapt to climate change; strengthen local management of biodiversity; and generate nature-based solutions to increase food security and incomes. In 2023, across these four Sahelian countries, Groundswellsupported programs that engaged 101,152 smallholder farmers through cascading, farmer-to-farmer training; contributed to regenerating 157,266 hectares of land; and programs benefitted 1,464,257 people. Latin America and the Caribbean - In 2023, we worked with partners EkoRural in Ecuador; Partenariat pour le Developpement Local (PDL) in Haiti; Qachuu Aloom and Asociacion Comunitaria Flor del Cafe aldea El Durazno in Guatemala; and Asociacion de Comites Ecologicos del Sur del Honduras (ACESH) and Vecinos Honduras. In these five countries, in 2023, we supported 13,248 smallholder farmers to improve their farming, create sustainable rural livelihoods, and strengthen their communities' resilience. Groundswell programs with partners in the region benefitted 93,726 people (about the seating capacity of the Los Angeles Memorial Coliseum) and helped regenerate 5,012 hectares of land. In 2023, we also began a new partnership with Centeotl in Mexico, to expand our initiative in support of communities in Mesoamerica's critically affected dry corridor. South Asia -- We worked with our partner Boudha Bahanupati Project (BBP) - Pariwar and the Rural Women's Upliftment Association (RWUA) in Nepal to create or strengthen 64 savings and credit groups with 1,415 members; train 1,499 smallholder farmers in agroecological farming practices to improve production and food security; and distribute goats and milking buffalos to 112 rural women, who will pass on the animals' offspring to other women in the future to spread benefits. In India, the Preservation and Proliferation of Rural Resources and Nature (PRAN) in Bihar, India, trained 213 smallholder farmers in agroecological farming practices and organized women into nine new community groups. Collectively, Groundswell-support programs in the South Asia region benefited 4,239 people, regenerated 132 hectares of land across 64 communities,

and the saving and credit groups accumulated \$59,411.94 USD in assets.

Pt I Line 2: Procedures for monitoring the use of grant funds outside the U.S.
Groundswell engages in extensive pre-grant due diligence of any organization
to which it disburses money. For foreign organizations, Groundswell requires
that the organization be a legally registered charitable non-profit organization
within its country. The information required to be provided by potential grantees
includes financials for the current and previous years, governing documents,
details about the board of directors, and descriptions of programs and activities.
These requirements are in addition to rather than in lieu of a project funding
proposal.
Once the decision is made to make a grant to a foreign organization, Groundswell
requires a written cooperation agreement between the grantee and Groundswell,
which outlines each organization's duties and responsibilities, including the grantee's
responsibility to request prior written approval from Groundswell before making
substantial modifications to the project and/or budget.
When the agreement is signed by the grantee, a transfer is made either from
Groundswell headquarters or by direct transfer from the donor to a local bank
account in the country where the grantee intends to implement activities outlined
in its project proposal.
During the grant period, Groundswell maintains regular and frequent contact
with grantees, including through e-mail, phone and occasional field visits.
Groundswell also requires regular progress and final narrative and financial
reports. When reports are received, management and staff compare actual expenses
to the approved budgeted expense, and, as necessary, seek additional explanation
for any significant variations not already documented in the narrative report.
Groundswell encourages all grantees to undertake annual audits of their overall
operations, and Groundswell reserves the right to require an independent audit
at its expense at any time during the project or program it is funding. This
